

Johanne - a heart cables cardigan for girls

Design: Signe Strømgaard

"Johanna" is part of Filcolanas "Colours of the Scandinavian Summer" collection. For this collection our team of designers have found inspiration in the incredible Scandinavian light and colours in the works of the Skagen Painters.

This cardigan is inspired by the airy, feminine mood in Anna Ancher's gorgeous painting of a young girl in a pink dress, braiding her hair as the summer light cascades through the window.

The cardigan is designed to have a loose fit and be slightly long, to make it lovely and cosy.

Short rows

When you turn in the middle of a row to make a short row, it is important to do something to avoid ending up with a hole at the turning point. The most common method is to wrap the working yarn around the next stitch on the needle before turning the work as follows: Hold the yarn to the front of the work, slip the next stitch from left to right hand needle, bring the yarn to the back of the work and slip the stitch back on the left needle. This creates a loop around the next stitch, which will eliminate the hole between the last knit and the first unknit stitch. Now turn the work and continue according to your pattern.

When working the stitch with the loop around it, lift the loop up and over the stitch it belongs to, then work the stitch and the loop together as if it were one stitch.

Directions for knitting

The cardigan is worked from the bottom up. First the body is worked back and forth to the armholes. Cables are worked along the front edges as well as in the middle of the back. Then the sleeves are worked and then sleeves and body are joined for the yoke, which is worked with raglan decreases as well as decreases along the front edges. The cables are finished and then short rows are worked to shape the neckline. Finally a front edge is knitted on.
